

September 12, 2017

The Abington School Building Committee is pleased to invite residents of Abington of all ages, as well as all interested Abington High School alumni, to tour and experience what the new Pre-K/Middle/High School has to offer our community.

On Saturday, September 16, 2017, at 2:00 p.m., the School Building Committee will host an official ribbon cutting ceremony at the building's front entrances, which will be followed by an open house for everyone in attendance. Guests will be invited to walk through the entire building and view the auditorium, the gymnasium and fitness center, the school library, cable television studio, seminar/lecture room, a science/chemistry classroom, a digital/fine arts classroom, and other typical classrooms in the Pre-Kindergarten, Middle School and High School sections of the new school building.

Although more site work remains to be completed, Abington's school construction project continues to be well ahead of schedule and on budget. The success of this project was made possible by the hard work and collaborative efforts of many community volunteers, our town's professional staffs and departments, and the professional services of Ai3 Architects, Brait Builders Corporation, and our project managers, Knight, Bagge & Anderson (KBA).

Please bring your family and join us on Saturday, September 16<sup>th</sup> at 2:00 p.m. to share in the excitement and to see firsthand how new technology, upgraded security features, and our invigorated staff and students will benefit from enhanced and updated educational opportunities for many years to come!
