

Human Reproduction
Worksheet

MALE

FEMALE

Sperm is made in the testicles

Lining of the uterus thickens with blood and tissue

Pregnancy begins

Steps to Human Reproduction Cards

Sperm leave the testicles and go up
the vas deferens

Semen, filled with sperm,
leaves the penis (ejaculation)

Sperm mixes with semen

An egg is released from an ovary
(ovulation)

Egg enters the fallopian tube

The fertilized egg travels down through
the fallopian tube to the uterus

Fertilized egg attaches to the
wall of the uterus

One sperm meets an egg in the
fallopian tube and fertilizes it

Sperm travel up the vagina, through
the cervix into the uterus, and into
the fallopian tubes
