

Thumbs up or thumbs down activity (thumbs up if you agree or think it's true and thumbs down if you disagree or think it's false)

1. If 2 people are virgins and have sex for the first time, they will not get an STI
2. The "S" in STI stands for sexually
3. STI and STD are the same thing
4. Some STIs cannot be cured and you will have them forever
5. Most STIs can lead to death
6. HIV and AIDS are the same thing
7. There is a vaccine to protect from genital warts
8. Some STIs can cause a girl to become infertile (unable to have a baby)
9. Condoms protect you from all STIs
10. If you knowingly have certain STIs and don't tell your sex partner you can be sued
